CALCULATED · Adobe Reader updates when you leave a field

MONTHLY PAYMENT	TOTAL INTEREST	TOTAL TO REPAY
DISPOSABLE (APPROX. 70% OF GROSS)	DTI	LEFT AFTER LOAN

How the calculator works

Annuity: $M = P \times r(1+r)^n / ((1+r)^n - 1)$ where r = annual rate/12 and n = years $\times$ 12.

Disposable $\approx$ 70% of gross minus fixed expenses. DTI = (existing debt + new monthly payment) / disposable. Cap 35%.

LTV = amount / collateral when collateral is given. Cap 85%. KS cover = share $\times$ amount when a co-applicant is requested.

A co-applicant from Kapital & Strategi AB rests on mutual trust, a repayment system, and both parties staying in the deal until the credit is repaid. See page 3.

INTERNAL NOTES / JOINT REVIEW**Mutual trust**

Kapital & Strategi AB steps in as co-applicant when we trust each other. That is how we can help the client get support for the investment. Repayment system and signatures are on page 3.

Co-applicant / guarantor application

Kapital & Strategi AB can step in as co-applicant guarantor after joint review. This page is the file you sign together.

Mutual trust and repayment

A co-applicant from Kapital & Strategi AB rests on mutual trust. When that trust is in place, we can help the client get support for the investment.

We set up a repayment system before the money goes out. Both parties know how the credit is repaid, when, and by whom.

The investment credit is a shared responsibility. The client and Kapital & Strategi AB both stay in the deal until the credit is repaid. Neither leaves the other with the debt.

7 The client confirms

- ☐ I understand that a co-applicant rests on mutual trust between me and Kapital & Strategi AB.
- ☐ A repayment system will be in place before disbursement. I will follow that plan.
- ☐ I stay in the deal as a responsible party until the credit is repaid. Kapital & Strategi AB does the same.

8 Request to Kapital & Strategi AB

- ☐ Request a co-applicant guarantor from Kapital & Strategi AB
